

# Dead Blue Sky, My Sadness Has No Seasons

I can't believe the things you said to me  
I never will relive that painful journey  
So the fortress of discontent I build  
And then with your destructive self  
Tearing at the foundation of my own happiness  
Thick deep in the memory of forget  
And infinite minutes of pain  
Sometimes I force the blame on everyone  
Like wrenching my cold heart from my thread  
My cold heart, I'm tormented  
By the void of helplessness, my selfishness  
In my heart, I'm tormented  
By images I cannot forget  
And infinite minutes of pain  
Sometimes I force the blame on everyone
