Dead Boys, Big City

To late to go back home Stranded in the streets Sweating in the heat Don't care to be a star Poundin on the door Sleepin on the floor

Big city, ain;t to pretty Big city, nice and loud Big city, don't want no pitty Big city, its one big crowd

No chance to make the big time I've been workin hard Got to take it far No love along the way I've been movin fast Got to make it last

Big city, ain;t to pretty Big city, nice and loud Big city, don't want no pitty Big city, its one big crowd

They say no, no, no Everywhere I go But I'm gonna win Agains the odds And my flaws Here in the city of sin, in the city of sin

I've got to get ahead Too many sceams, Too many dreams I got to be somebody Got to bleed for the things I need

Big city, ain;t to pretty Big city, nice and loud Big city, don't want no pitty Big city, its one big crowd Big city, ain;t to pretty Big city, nice and loud Big city, don't want no pitty Big city, its one big crowd
