

# Dead Boys, Hey Little Girl

(Recorded Live at CBGBs)

Hey little girl  
You don't have to hid nothing no more  
You didn't do nothing  
That hasn't been done before

Little girl thought  
She wouldn't get caught you see  
She taught she'd get away  
With her going out on me

Other girls did it  
You didn't think of nothing new  
You went out on me  
So other girls did it too

You can leave little girl  
I don't want you around no more  
If you come knocking  
You won't get past my door

You got nothing to hide  
And everyboby knows it's true  
Too bad little girl  
It's all over for you
