

Dead Flowers, Seasons

Hey hey people will do what ever they've set
but I can't forget you or the hole that you left
oh woman be kind and come back to it
I can not do it without you
Have 'em on, have 'em on
I wish I could sit and play with your face
drown in your eyes or gorge in your taste
no woman alive could ever replace
the feelings I have about you
have 'em on, have 'em on
Seasons fly
Watch them sky
Hell inspired
She's so fine
I've been such a fool to hurt you like I have
so what can I do to get you coming back
between me and you and all that we had
I can not do it without you
have em on, have em on
people will do whatever they've set
but I can't forget you all the hole that you left
oh woman be kind and come back to it
have em on, have em on
Seasons fly
Watch them sky hey I'm thinking
Hell inspired all insane, I'm taking
She's so fine all this pain
ah come around
hey hey ah ah ah...
I said and I'm wanting it, wanting it.....
