

Dead Milkmen, I Can't Stay Awake

I can't stay awake
Somebody help me, please

I have too many fingers
Some of them need to leave
Help me out of my body
Help me not to sleep

I can't stay awake
Somebody help me, please

I have too many pills
Some of them need to leave
Get them out of my body
Get them out, please

There's no good way to say good-bye
I'm only good at saying, "Hi."
So I guess I'll go away
Touch the sun and forget about today

I can't stay awake
Somebody, please, help me

I have too many fingers
Some of them need to leave
Help me out of my body
Help me not to sleep

There's no good way to say good-bye
I'm only good at saying, "Hi."
So I guess I'll go away
Touch the sun and forget about today

I can't stay awake
Somebody help me, please

I can't stay awake
Somebody, please, help me
