

# Dead Milkmen, Part 3

I saw you naked and you were chasing a pig  
So I led the police to your house and showed 'em where to dig  
You thought you could live in peace  
But I saw you naked and I called the police  
I saw you naked and I saw the terrible things you did  
I saw you naked and you know it made me sick,  
I saw you naked you were camping with scouts  
I know they earned some merit badges when the lights went out  
How could you touch those children?  
I saw you naked and you were holding a trout!
