

# Dead Moon, Can't Do That

Your situation's on the top of my head  
I don't know what to do  
I know it's painful but it's got to be said  
These things you're going through  
Oh, you can't do that

You always had a way of keeping things in It's just the way you are  
It's only lately I don't know where you've been  
I'm afraid you'll go to far  
Oh, you can't do that

I miss the way we were before we got lost  
It will never come again  
I'm only trying to get the wires uncrossed  
Before it all ends
