

# Dead Moon, Don't Look Back

You were willing, you were much too wise  
You were willing, now it's gone inside  
Don't look back  
You were simple in your little games  
You're so simple now it's all the same  
Don't look back

Don't look back on those times you had  
Don't look back you might feel so bad

In a minute or an hour or two  
In a minute we'll just see 'bout you  
Don't look back  
You were easy in your little ways  
You're so easy now you lost the game  
Don't look back
