Dead Moon, Get On Board

Suicidal cement screams
I seen 'em all inside my dreams
I see them coming through my head
Make me wish I was dead
Ghosts chase silent foes
I never knew I'd get aboard
Cover me in ice
Til the edge og time
Can you see the stream, drowning in the deep
Something so bad
Can you see the ship, sacrifice
myself
Grab you instead
Get onboard

Painted child seldom seen I've gone another way to be Put the mark upon my head Make me wish I'm dead The servants never called The dog's been put in chains They can't hear you anymore They've all gone straight No matter what they say I guess it's really sad To never get across I looked into the eyes The same as before But I just got lost Get on board
