

# Dead Moon, Play With Fire

Well you got your diamonds  
And you got your pretty clothes  
A chauffeur drives your car  
You let everybody know  
Don't play with me  
You're playin' with fire  
Her old man took her diamonds  
And tiara's by the score  
Now she gets her kicks in steady  
Not in knights bridge anymore  
Don't play with me  
You're playin' with fire

Well you got your diamonds  
You will have some others  
But you better watch your step girl  
Or start living with your mother

Don't play with me  
You're playin' with fire  
Don't play with me  
You're playin' with fire  
Don't play with me  
'cause you're playin' with fire
