

Dead Mushroom, Read My Mind

Go now, coz I just can't wait
Fear me not, I won't just sty
You make me bleed
Uncaptured, flow makes me crazy
Got them in control I feel
I got astray
Wonder why you leave me a trail
You don't understand what I feel inside
You gave me all those sweet hope lies
I look back I just can't help to realise

CHORUS

Never gonna read my mind
Never gonna let it down

CHORUS

Never gonna read my mind
Never gonna let it down

Reasons to lie

Reasons to hide

Reasons to cry

And reasons to break down

Don't you know you mean nothing to me

Your past is not gonna be a blazing glory

Confusing paths lead in your way

Yeah?always happen to you anyway

REPEAT CHORUS
