

Dead Or Alive, Wish You Were Here

Oh, I need somebody to play with baby
You have what somebody else has to stay with
I simply cannot ignore you
Come over here, I'll do something for you
Girls won't, boy's don't
You've got me, you get a lot of meat
I call you up and
*all I can say is oh I wish you were here, here
where I can see ya, see ya
**I should grow up
and learn that people are not toys now
forget it boy, forget it boy
I won't
I have got my fingers in my ears
I block out what people are saying
Block out the noise
Block out the noise
You won't
(*repeat)
No one would know
(**repeat)
(*repeat)
No one would know
Oh won't you please come
No one would know
You know I wish, I wish that you were here
I wish, I wish that you were here
