

Deadman, Blue River

i remember well a place in my mind
a place i can go where you're all mine
a place called blue blue blue river
blue blue blue river
not a train ride or a plane ride is going to get you there
and if i remember right we'll get through and go back to
blue blue blue river
blue blue blue river
how many miles can you carry the load before you've got lay it down?
it's the last leg the last stretch of road that will lead you back around
to the river
so what can you say you know i still need your love
what does it mean that you can't give enough?
well you take it down a level and there we go
back to flesh and blood back to what we know
blue blue blue river
blue blue blue river
blue blue blue river
blue blue blue river
