

Deadman, Brother John

well i remember seeing you seeing you at the show
and what seemed like yesterday turned out to be a long time ago
well it's hard to believe but that's how it goes one year just bleeds into five
won't you help us help us help us brother john?
well the story you told me about dear john the apostle who jesus loved
sent to care for mary and dear brother james in all of their broken worth
so hard to believe but that's how it goes one year just bleeds into five
won't you help us help us help us brother john?
so hard to believe but that's how it goes one year just bleeds into five
won't you help us help us help us brother john?
now we drink at saint john's to drown out our woes in a world where no music plays
and the man strums a tune on his broken guitar i think i remember his name
so hard to believe but that's how it goes one year just bleeds into five
won't you help us help us help us brother john?
won't you help us help us help us brother john?
