

# Deadman, Three Murders

three murders three murders what the headlines say  
they contradict the blackened day and there's nothing that can stop it they say  
three victims three victims laid to rest  
the cops all protest they claim to have done their best  
there's nothing more they can do  
there's nothing more they can do  
there's nothing more they can do  
nothing more they can do  
juarez juarez is a haunted place  
the ambulances try and race to beat the others to the place  
where three women all working for the mighty peso  
can't seem to let it go and the numbers still climb and grow  
there's nothing more they can do  
there's nothing more they can do  
there's nothing more they can do  
nothing more they can do  
how long is too long and you've had enough?  
how little is too late to stop it and the hate goes on and on  
i hope you see the light of day  
i hope you see the light of day  
i hope you see the light of day  
i hope you see the light of day
