

# Deadmau5, Professional Griefers (feat. Gerard Way)

I like the sound of the broken pieces  
I like the lights that assign where she sits  
We got machines but the kids got Jesus  
Ought to move like we're off the name list  
God can't hear you, they will fight you  
Watch them build a friend just like you

Morning Sickness, XYZ  
Teenage Girls with, ESP

Gimme the sound, to see  
Another world outside that's full of  
All the broken things that I made  
Just give me a life, to plea  
Another World outside that's full of  
All the awful things that I made

We like to dance but the dead go faster  
Turn up the slam and a barcode blaster  
We want the cash or the drugs you're after  
Rise up control for the mixtape master

Self correction, Mass dissection  
Xbox brats on in detention  
Morning sickness, XYZ  
Boys with bombs in NMA

Gimme the sound, to see  
Another world outside that's full of  
All the broken things that I made  
Just give me a life, to plea  
Another World outside that's full of  
All the awful things that I made
