

Deadsoul Tribe, Once

Once
I was strong
Now I see
I was wrong
What I need
All along
I've received
Now it's gone

Once
You were here
And I wanted you near
Now I've made
What I've feared
Now I've made
What I feared

You keep me wanting you

When I think of you
I wish that you were here
Every now and then
I dream about you my dear
I'd tell you my regret would never disappear
If I could see you once again

Once
I believed
Now I feel so deceived
That I should be relieved
That our love is bereaved

You keep me wanting you

When I think of you
I wish that you were here
Every now and then
I dream about you my dear
I'd tell you my regret would never disappear
If I could see you once again
