## Deadsoul Tribe, Once

Once I was strong Now I see I was wrong What I need All along I ve received Now it s gone

Once
You were here
And I wanted you near
Now I ve made
What I ve feared
Now I ve made
What I feared

You keep me wanting you

When I think of you
I wish that you were here
Every now and then
I dream about you my dear
I d tell you my regret would never disappear
If I could see you once again

Once I believed Now I feel so deceived That I should be relieved That our love is bereaved

You keep me wanting you

When I think of you
I wish that you were here
Every now and then
I dream about you my dear
I d tell you my regret would never disappear
If I could see you once again
