Deadstar Assembly, Comes To Tongue

You said I'm sugar You'll taste it But it's another

When you're next to me I see through you feed I'm your selfish thing Keep on pulling strings And I'll be right there

You want things
But their so past you
You see three
When there's two
You want me
When it comes to...
Tongue, tongue, come, tongue

You feel Manipulated But that is not enough Cause you're so hated
