Deadstar Assembly, Your Fiend

A fix that saves the dead I'll do it once And my mouth's wide open

Now I'm here again Another fuck With a monkey controlling me

I can't get myself away from this It keeps calling me I can't get myself out of it I keep falling

Your scent enlivens me And you've made me bad Cause you made me your fiend

I want to seep into you My existence has failed I'm broken

I only live through you Another fuck Who has no hope YEAH!

You keep calling me You keep calling me You keep calling mel'm your fiend

Addiction dilates I"II do it once And my mouth's wide open

Pathetic fall from grace Another fuck With a monkey controlling me
