

# Deadsy, Flowing Glower (Days From Impact vers

Now you know  
Places where I've lived  
When I couldn't grow  
Downward you'll soon drift  
On the sailless boat  
Nothing left to give  
All I see is throat

Flowing glower  
Witless knower  
Seedless sower

If it's all a lie  
Will you realize

Right before we die  
My soul leads to the wrong  
Changeling of the night  
Now that I bleed a song  
Purely based on fright  
Sad with my face so long  
I have this new sight

Flowing glower  
Witless knower  
Five steps lower

If its all a lie  
Will you realize

Numbed the pain  
Way high and real low  
Now it feels the same  
Have love or feel so  
Hollowed out with shame  
Hoping to see the day  
With my brand new name

Flowing glower  
Seedless sower  
I'm bipolar

If I die tonight  
Will you be all right

Then in time you'll find  
Thirst becomes boring  
Lest your heart and mind  
Now that we're soaring  
Over space and time  
Done with exploring  
All you are is mine

Flowing glower  
Loopless Thrower  
Breathless blower

If it's all a lie  
Will you realize

Seek and you shall find  
Everything in sight  
Read between the lines  
I'll show you the light

Here in the afterlife
