

Dealership, Then

Hello Kitty,
I've looked for you
for hours
in the city.

I thought the things
you said last night
were witty.

I mean -

I think you're
violently
pretty.

So if you
want
to
come
by
and...

You think I'm tough.
But you don't think I regret
I'm too much
and
not enough?

I have no choice.
I'm caught in the storm of your eyes
and the velvet in your voice.

I'm not the man
you're waiting for
I realize -

I know that
I
don't
fit into
your lifestyle

But if you want to
I could stay
a long while

If you'll just say
you'll
come
tonight.

Lifts like a veil.
Your skin shines like starlight.
So lovely and so pale.

I have no choice.
I'm caught in the storm of your eyes
and the velvet in your -

...voices lose their power to say.
There are letters -
I can't write -
but...
Can you let those lush

nights
fade?

Your skin remembers every
single
night.

Lifts like a veil.
Your skin shines like starlight.
So lovely and so pale.

I have no choice.
I'm caught in the storm of your eyes
and the velvet in your -

"!"

I have no choice.
I'm caught in the
storm
of your eyes
and the velvet
in
your
voice.
