

# Dean Lewis, Scares Me

I was walking through Toronto  
You were back home at your place  
And I walked past a little bar  
I swear to God I saw your face  
'Cause you stay on my mind, you stay on my mind  
Almost every day, almost every night  
And I haven't felt this way in a long time  
And it scares me

'Cause it's never easy to fall in love  
When half of your heart wants to give it up  
It's never easy

And if we change, can we change the same?  
And if we run, can we run in place?  
And baby if we break, can we split the pain?  
I don't know what I'm trying to say  
I guess I kinda love you babe  
And it scares me

Now you're out in Colorado, and are you moving to LA?  
You got me wrapped around your finger, even through the time and space  
Am I on your mind? Say I'm on your mind  
'Cause every goddamn day you're all over mine  
And I haven't felt this way in such a long time  
Oh, it scares me

And if we change, can we change the same?  
And if we run, can we run in place?  
And baby if we break, can we split the pain?  
'Cause I don't know what I'm trying to say  
I guess that I still love you babe  
And it scares me

I still love, I still love, I still love you  
I still love, I still love, I still love you

And if we change, can we change the same?  
And if we run, can we run in place?  
And baby if we break, can we split the pain?  
I don't know what I'm trying to say  
I guess that I still love you babe  
And it scares me
