(So long baby so long)

So long baby you better go now

So long baby I guess I know now

Well you didn't care for me the way I cared for you

Yeah you took my loving heart and broke it in two

So long baby let's say goodbye now

So long baby I better cry now

All I can tell you even though I might be wrong now

So long baby so long

Well you didn't care for me the way I care for you

Yeah you took my loving heart and broke it in two

So long baby let's say goodbye now...

Cause so long baby so long

Cause so long baby goodbye
