Dean Martin, Some Enchanted Evening

Some enchanted evening You may see a stranger You may see a stranger across a crowded room And somehow you know You know even then That someday you'll see her again and again

Some enchanted evening Someone may be laughing You may hear her laughing across a crowded room And night after night As strange as it seems The sound of her laughter will sing in your dreams

Who can explain it who can tell you why
Fools give reasons, wise men never try
Some enchanted evening
When you find your true love
When you feel her call you across a crowded room
Then fly to her side
And make her your own
Or all through your life you may dream all alone
Once you have found her never let her go
Once you have found her never let her go
