

Dean Martin, The Sneaky Little Side Of Me

THE SNEAKY LITTLE SIDE OF ME

(Baker Knight)

'69 Pomona Music

There's a sneaky little side of me the kind I want to set you free
So I can go see what's waitin' just over the hill
Every now and then I hear something whisper in my ear
Telling me somebody else could give me a thrill
Oh the sneaky little side of me the kind I want to go and see
And I could be happier walking with somebody new
But every time I start to go something in my heart says no
And tells me how lucky I am belongin' to you
And this sneaky little side of me is learning fast
Bout the way I'm livin' and the love I'm givin'
And the love that couldn't last
When you meet me at the door each night
And put your arms around me tight
I know that there just couldn't be anyone sweeter than you
Suddenly to my surprise I begun to realize
That the sneaky little side of me is in love with you too
Oh suddenly to my surprise I begun to realize
That the sneaky little side of me is in love with you too
(Sneaky little side of me the sneaky little side of me
Sneaky little side of me the sneaky little side of me)
