

# Dean Strickland, Have An Affair

She talks about she wants an affair  
And I don't give enough warm love and care  
I don't hold her hand when we walk down the street  
I don't make enough romantic public scenes

That's what she wants for me to be warm  
And tell her how lovely I think her eyes are  
To mention her hair and keep going  
To have an affair

## CHORUS:

I'm gonna have an affair  
And be more of what she wants  
More romantic and warm  
I'll let her know I care  
Because I do care

I'm gonna have an affair

If I ever see her again  
I'll be a different man  
I'm making plans

To have an affair  
And be more of what she wants  
More romantic and warm  
I'll let her know I care  
Because I do care  
I'm gonna have an affair  
Have an affair  
Have an affair  
Have an affair
