

Dean Strickland, With A Smile On My Face

The rain it slows me down
And keeps me looking forward
To when the sun comes back around
On rainy days I wish all the dark grey clouds
Would quickly float away
For this reason I anticipate
The sunny skies with a smile on my face

With the sunshine I feel more free
After the rain the clean fresh air
I do love to breathe

All times of year whether Winter, Spring, Summer, or Fall it's great
For this reason I anticipate
The change of seasons with a smile on my face

Severe weather won't ever hold me back
'Cause on my dreams my mind's focused and on the right track
I keep moving forward I'm not afraid of looking back
Since I've learned from my past mistakes
And keep working hard to make the world a better place
For this reason I anticipate
A bright future with a smile on my face
