

# Dean Strickland, With You With Me

You're not mine  
Still there's something I want to let you know  
It's been sang a million times  
In a million different ways  
You know I love you so  
You're very fine  
The way you carry yourself  
I'm sure your mom and dad are proud  
Can we go out tonight?  
I'll treat you nice  
You and I can paint the town

With you with me  
I believe that I can do anything  
With you with me

I do believe that I will always be happy  
With you with me  
We can make all my deams come true  
'Cause you with me  
Gives me the stength to see them through

Since you've said no  
And that you have to go  
I feel so low  
My reason for going on is gone  
It's like I lost my friend  
And my world is coming to an end  
Please help me carry on  
Please don't take to long
