

Dean Strickland, Working To Further My Career (

If I don't work then I don't eat
And I don't wanna be living on the streets
No rich kid here that'll soon go home
If I make it you can all believe I did it on my own

CHORUS:

Working to further my career
As a singer and a writer of songs
The songs my fans wanna hear

A dreamer that's trying and not giving up
No matter what the cost no matter how the luck
So come on won't you give it up for me

The hardest working man in the industry?

CHORUS

I perform at night and I work in the day
At a regular job to get regular pay
My boss and I always get it straight
That when I got a gig my job's gotta wait

'Cause I'm only working to further my career
As a singer and a writer of songs
The songs my fans wanna hear
