

Deana Carter, Graffiti Bridge

We've been over this a thousand times
Spinnin' our wheels instead of saying goodbye
Down by the water where we first kissed
Goin' under graffiti bridge

It's still brighter than a neon sign
I remember watchin' you paint your name next to mine
We couldn't try no harder so it's come down to this
I can't get over graffiti bridge

I can still see your Thunderbird fly
Kissin' me sweet, lettin' me drive
I still hear the whisper of my name on your lips
I can't get over graffiti bridge

Let me hold you here one last time

I'm a heartbeat away from the Arkansas line
I could travel one thousand miles away from this
But will I ever get over graffiti bridge

I can still see your Thunderbird fly
Kissin' me sweet, lettin' me drive
I still hear the whisper of my name on your lips
I can't get over graffiti bridge

I can still see your Thunderbird fly
Kissin' me sweet, lettin' me drive
I still hear the whisper of my name on your lips
I can't get over graffiti bridge

I can't get over graffiti bridge
