

Deana Carter, Michelangelo Sky

We fell in love underneath Michelangelo sky
we saw the same things in the shapes of the clouds rolling by
a blanket of leaves and the soft summer wind
feeling the heat of the sun on our skin
that's when I learned how to fly

CHORUS one kiss and you painted a picture of heaven
it's there when I look in your eyes
I swear I can see forever
underneath Michelangelo sky

until that day I was living in black and white
the touch of your hand brings all these colors to life
I get the feeling this feeling won't fade
here in your arms I get carried away
back to the very first time

REPEAT CHORUS 3 TIMES
