

# Death By Stereo, Beyond The Blinders

yeah

you take another one in the back  
you take another one in the teeth  
I've got a veil over my eyes  
this fucking country won't let me see

I'll take this knife out of my back  
and stab it straight into the heart  
of a country that was built on lies and murder -from the start x3

it's time to take it for the team boy  
you're the no esteem dream toy  
and if you bend over far enough  
we'll make this country number one!

you take another one in the back  
you take another one in the teeth  
I've got a veil over my eyes  
this fucking country won't let me see  
that our very own existence  
isn't really -ours to be x3

you can't take this from me  
you can't take this from my heart  
it's a will to live that carries me beyond the blinders  
if you look inside me  
there's a place you cannot take  
it's an independent solitude  
a will -you cannot break x2  
you'll never break

yeah

I'll take this knife out of my back  
and stab it straight into the heart  
of a country that was built on lies and murder from the start  
and if you read between the lines  
it's not very hard to see  
that our very own existence  
isn't really -ours to be x3
