

Death By Stereo, Entombed We Collide

Hands tied; crucified, lost, found, entombed we collide.
Black whole, my brain,
Focus, insane,
Left out, betrayed,
Your hole, my vane,
I can't sustain, for much longer,
Without your pain, makes me stronger
Sandpaper licking my wounds, I want more, make me hate myself!

Ice cold, disown, sickened now,
I can't die in this balloon, suffocating,
This world, disown, sickened now, and now I'm breaking free

I can't feel with this f**king insane, I can't feel with you f**king my brain,
I can't feel unless you pushed from inside, I caress then crush, hope and the light,
I will burn this book, shove it inside, Shove it up my ass, spit out your pride,
I can't think, I'm just f**king instead, Somebody slit my throat, D.B.S!
Sandpaper licking my wounds, I want more, make me hate myself!

Ice cold, disown, sickened now,
I can't die in this balloon, suffocating,
This world, disown, sickened now, and now I'm breaking free

Ice cold, fit the mould, crushing me, I'm breaking free, I can't die in this balloon,
Blood! I wasn't born from this womb,
Pain! This world, crushing me alive,
Cum! My will is stone, my hope won't die,
Blood, pain, cum, insane,
Blood pain, cum, the same

I collide, consumed inside,
This hate, this life, then we slide,
Entombed inside we collide,
I collide, then it dies

Ice cold, disown, sickened now,
I can't die in this balloon, suffocating,
This world, disown, sickened now, and now I'm breaking free
Breaking free
