Death By Stereo, Entombed We Collide

Hands tied; crucified, lost, found, entombed we collide. Black whole, my brain, Focus, insane, Left out, betrayed, Your hole, my vane, I can't sustain, for much longer, Without your pain, makes me stronger Sandpaper licking my wounds, I want more, make me hate myself!

Ice cold, disown, sickened now, I can't die in this balloon, suffocating, This world, disown, sickened now, and now I'm breaking free

I can't feel with this f**king insane, I can't feel with you f**king my brain, I can't feel unless you pushed from inside, I caress then crush, hope and the light, I will burn this book, shove it inside, Shove it up my ass, spit out your pride, I can't think, I'm just f**king instead, Somebody slit my throat, D.B.S! Sandpaper licking my wounds, I want more, make me hate myself!

Ice cold, disown, sickened now, I can't die in this balloon, suffocating, This world, disown, sickened now, and now I'm breaking free

Ice cold, fit the mould, crushing me, I'm breaking free, I can't die in this balloon, Blood! I wasn't born from this womb, Pain! This world, crushing me alive, Cum! My will is stone, my hope won't die, Blood, pain, cum, insane, Blood pain, cum, the same

I collide, consumed inside, This hate, this life, then we slide, Entombed inside we collide, I collide, then it dies

Ice cold, disown, sickened now, I can't die in this balloon, suffocating, This world, disown, sickened now, and now I'm breaking free Breaking free
