

Death By Stereo, Sing Along With The Patriotic P

Go!

You can take my work

You can take my place

I think you're a fool

I think you've got bad taste

You can take your flag

You can take your pride

You can bend right over

Your asshole's open wide

Open wide, here I come!

Yeah right, I've got pride

Pride in a system

That's designed

To waste all your minds

Go! USA

It's the way

So wave them real high on flag day

It's your right to be proud

So scream it and shout it, shout it, shout it aloud

Buy into lies

The government feeds your meathead mentality

Go, Go to work

Don't do it for you, but for state, country, national church

It's the way, today

Your paycheck will wash sins away

It's okay

Don't be afraid until Uncle Sam robs you blind

Did you hear what I said you are blind

Hear what I said you are blind

Blind

My country tis of thee, sweet land of liberty, full of national pride

Come on baby open wide

You can take my work

You can take my place

You can let them win

Spit right in your face

Spit right in your face

Spit right in your face

Spit right in your face

Spit right in your fucking face
