

Death, In Human Form

People of the earth beware
It is here in human form
An atrocity laced with greed
Filled with evil intentions
Ready to attack

Look to the air for stories to choose
Who will be your next victim
Profiting on visions of others
dark emotions run through its veins
Its motives are false its mind is insane
A distant planet with no signs of life
To become a home for this alien breed
Scientists of the world unite
Your services are more than needed
This creature in human form is out of control

Looks can be deceiving, see beyond the shell
Flesh and eyes mean nothing
The truth, time it will tell
Before you think you fool the world
What comes around goes around
Shown for what you are, A waste of life
