Death, In Human Form

People of the earth beware It is here in human form An atrocity laced with greed Filled with evil intentions Ready to attack

Look to the air for stories to choose
Who will be your next victim
Profitting on visions of others
dark emotions run through its veins
Its motives are false its mind is insane
A distant planet with no signs of life
To become a home for this alien breed
Scientists of the world unite
Your services are more than needed
This creature in human form is out of control

Looks can be deceiving, see beyond the shell Flesh and eyes mean nothing The truth, time it will tell Before you think you fool the world What comes around goes around Shown for what you are, A waste of life
