Death In June, Flieger

Above the stars
And, above the moon
We initiate
We will be there soon
Above the stars
And, above the moon
We initiate
We will be there soon

Flieger, flieger Flieger, flieger

Screamers come and screamers go Little scythes cut the air As above so below Screamers come and screamers go Little scythes cut the air As above so below

Flieger, flieger Flieger, flieger

Cruising altitude
Here we come
Scoring from behind
Out of the black sun
Cruising out of tune
Here we come
Shooting from behind
Into the black sun

Flieger, flieger Flieger, flieger

Hearts we never feel Like calming down We're high above Our hallowed ground Hearts we never feel Like calming down We're high above Our hallowed ground

Flieger, flieger
