Let me hynotize you Let me take control  
Let me radiate you stupid little soul  
I'll give you heaven I'll give you Broadway  
I'll give you I'll give you the empire state  
Let me mesmerize you Let me come inside  
There's no way to escape this look in miy eyes  
You know I need flesh You know I need flesh  
Don't you worry honey I'll clean up all the mess

Let me come inside you Let entertain  
You know this will cure and take away your pain  
This is like vegas This is for fun  
This is like the movies
