

# Death SS, The Cannibal Queen

She lives in the jungle  
Between wood and green  
She doesn't really know  
What good manners mean

She dances in the fire  
To the tribal beat  
But she has a bizarre taste  
When it comes to meat

Look out! She's dangerous!  
Take care! She's out of control!  
She looks so lovable  
But she can swallow you whole!

Smash your body!  
Tear your skin!  
Give your flesh to  
The cannibal queen!

Draw your blood,  
Brain and spleen!  
Give your heart  
To the cannibal queen!

She talks to the animals  
And walks stark-naked  
She's hungry for my love  
But her greed is wicked

She has the beauty of a goddess  
The sexiest of all  
But if you try to touch her  
You're on the torture pole

Look out! She's dangerous!  
Take care! She's out of control!  
She looks so lovable  
But she can swallow you whole!
