

# Deathbot, On

One more time  
This ain't another sad song  
It's a shot in the dark  
It's a love it's a spark  
It's something to keep you on

I got my coat and hat  
I got my pretty shirt on  
Couldn't trade me in recycle you thin  
There ain't nothing left to do

So I'll walk down that here road  
You got us going  
It's one more step to go  
You got us going  
It's a push hey I know  
You got us going now

You know I said what's up  
You know I got no name  
I'm just a look I'm a gaze  
I'm a picture in your face  
Just something to keep you on

It's just one last night  
In these bright white lights  
There's a brawl on the corner  
And it's going 'till the morning  
I think I might come clean

Until then I'll walk this road  
You got us going  
It's one more step to go  
You got us going  
It's a push hey I know  
You got us going now

One more time  
This ain't another sad song  
It's a shot in the dark  
It's a love it's a spark  
It's something to keep you on

Until then I'll walk this road  
You got us going  
It's one more step to go  
You got us going  
It's a push hey I know  
You got us going now
