

# Deathstars, Blitzkrieg

...In your dreams, Hearts shake  
Nerves scream, Minds break  
Heavens turn, Grounds crack  
Prayers burn, Burn black

And it's all there inside of you  
It's deadly, dark, cold!  
Can you feel the explosion  
Now lean back and enjoy the show!

Blitzkrieg!  
Blitzkrieg!  
Blizkrieg BOOM!

Hope fails, Death shines  
Long nails, Hell's vines  
Terrors speak, Walls fall  
Addictions seek, Seek it all

And it's all there inside of you  
It's deadly, dark, cold!  
Can you feel the explosion  
Now lean back and enjoy the show!

Blitzkrieg!  
Blitzkrieg!  
Blizkrieg BOOM!

...This is the end  
Still your need is driven on, driven on...  
(As we trigger one last bomb)

Wounds bleed, Tears ride  
Demons feed, Angels hide  
Fathers sigh, Mothers weep  
Children cry, Crying deep

And it's all there inside of you  
It's deadly, dark, cold!  
Can you feel the explosion  
Now lean back and enjoy the show!

Blitzkrieg!  
Blitzkrieg!  
Blizkrieg BOOM!

Fuck the world with a gun and a broken blade!

...This is the end  
Still your need is driven on, driven on...  
(As we trigger one last bomb)
