

Deathstars, Damn Me

Die, I wanna watch you die as you speak those words to me
Die, I wanna watch you die as you sell those to please

We were never your sheep to keep and guide or victims by your side

I never asked for the world that you brought me, never wanted it
I never asked for that lie, so damn me as I say goodbye

Fall, your tower falls as you bring it's bricks to me
Fall, you want my visions but the sights are to dark to see

We were never your sheep to keep and guide or victims by your side

I never asked for the world that you brought me, never wanted it
I never asked for that lie, so damn me as I say goodbye

I never asked for the world that you gave me
I never wanted the world that you brought me
