

Deathstars, Death Dies Hard

Watch the vultures as they open their eyes
Can you please, please give them something
Play the heavens with the Devils dice
Can you serve them, feed em with your king

Youve never seen anything like this before
You will never see a clockwork sunrise no more

I bring no shelter cause I...

I will deny you
This world belongs to me
You try to fake it
But all wounds are there to see

Death Dies Hard
Watch as the Devil gets sold to me
Death Dies Hard
Enter hell and use the bone of God as key

The lotus withers as the insects thrive
Can you please please give them something
The pulse of darkness brings God alive
Can your black crimes be carried on white wings

Youve never felt anything like this before
A sulphur storm brings the victims upon the shore

I bring no shelter cause I...

I will deny you
This world belongs to me
You try to fake it
But all wounds are there to see

Death Dies Hard
Watch as the Devil gets sold to me
Death Dies Hard
Enter hell and use the bone of God as key
