

Deathstars, No Light To Shun

How can a pure heart fight without resistance
And fail never to return, shot down, set out of burn
I shun the day - death is one heartbeat away

No light to shun
It's rapture it's pain, it's bodies bleeding in the rain
No light to shun
Never give in - shut down - set for sin
Suffering...suffering...suffering

I need to drink the tears of the angels to burn (and I burn)
Light in exile, black nexus, godless child
You have to sleep with demons to love the wild

No light to shun
It's rapture it's pain, it's bodies bleeding in the rain
No light to shun
Never give in - shut down - set for sin
Suffering...suffering...suffering

You will watch the world bleed
No light to shun...
