

# Debbie Gibson, Staying Together

You can't go boy  
We've been over it a hundred times but this one's different  
This time I'm not asking what you think  
I'm telling you  
We're staying together  
Whether you like it or not

Here we go!

## VERSE 1:

If you thought that I would get up and go  
Oh baby got something you should know  
I got one thing on my mind  
That's staying together  
Oh and I'll tell you boy, it just isn't right  
I won't say goodbye without a fight  
'Cause you and me are staying together

## CHORUS:

Don't you say goodbye to me boy  
There's something you should know  
Here's love before your eyes  
If you go my heart would leave me  
When you walk out that door  
It's like I told you before  
Let's stay together

## VERSE 2:

Oh, if you thought that I would stand by your side  
You know me boy, I never lied  
Cause you and me are staying together  
Oh it was so much more than love at first sight  
Please say you'll stay, say you might  
Then say we are staying together

## CHORUS

## BRIDGE:

Cause I don't know baby what you've done, don't know  
(I only know baby, I only know)  
You were always the only one  
(Oh please don't go baby, oh please don't go)  
Don't take my heart away from me  
And leave me out in the cold baby  
(Out in the cold baby)  
Cause you're the only one, cause you're the only one  
Who could ever hold me

Now here's love  
Ooo Ooo

Here's love before your eyes  
If you go my heart would leave me  
When you walk out that door  
So let's stay together

Don't you say it, don't you say it, don't you say it  
Don't you say goodbye to me boy  
(Here's love) It's right before your eyes  
Don't even think about it!  
If you go my heart would leave me  
When you walk out that door  
It's like I told you before  
Let's stay together

Don't you say goodbye  
No, don't you say goodbye  
(Here's love) Here's love  
It's right before your  
It's right before your eyes  
Yeah!
