

# Debelah Morgan, Let's Get It On

(Chorus)

Let's get it on on on and on and on  
Baby, let's get it on  
Let's get it on on on and on and on  
Baby, let's get it on  
Let's get it on on on and on and on  
Baby, let's get it on  
Let's get it on on on and on and on  
Baby, let's get it on

Ooh

Get it on

(Verse 1)

Have you ever seen lips so fine  
I feel like I could kiss you all the time  
Have you ever made love in the rain  
One night with me and ya never be the same  
Have you ever loved a woman so much  
That lovin' her you could never get enough  
Take my hand baby, come with me  
I wanna show you how love can be

Chorus

(Verse 2)

Have you ever seen eyes like mine  
So beautiful I'm one of a kind  
Have you ever made love in moonlight  
The scent of us filling up the night  
Baby when you come home one day  
To give yourself tender-loving care  
Take my hand baby, come with me  
I wanna show you how love can be

Chorus

(Bridge)

Tonight when you come over  
I'm gonna take you baby by the hand  
And then I'm gonna show you  
What a good good woman does for her man  
I could take you to heaven  
All you have to do is say you'll be mine  
And you'll never be lonely  
Coz I'll be loving you all of the time  
[repeat to chorus to fade]
