

# Debelah Morgan, Tonight

(Debelah Morgan, Giloh Morgan)

Tonight I sit here with you

I can't believe what we've just been through

When all has been said and done

I know that you're the one

Who's been sent to show me the meaning of love

That's why tonight

The beginning of my life

I'll start it right with you by my side

Tonight my eyes are open wide

A final goodbye to memories of yesterday

Flashbacks of memories

And the way it used to be between you and me

But what, what I never knew, love's angel would come through

And now I'm back stronger than before

Tonight's the beginning of my life

And I'll start it right with you by my side

Tonight my eyes are open wide

A final goodbye to memories of yesterday

Love lived in me

Now I can see

Love lived in me

Now I am free, I am free

Tonight

The beginning of my life

With you by my side

Tonight my eyes are open wide

A final goodbye to memories of yesterday

Tonight The beginning of my life

I'll start it right with you by my side

Tonight my eyes are open wide

A final goodbye to memories of yesterday
