

Debeli Precjednik, Smiling Right At Our Faces

Racist cops walk on the street
"serve", "protect" and break my teeth
criminals they're working for
earn their fortunes in the war
and now they are called heroes

...and i don't understand...

millions of people out of job
wages, homes or will for life
but, you are smiling on TV
making all those promises
that you can't keep

...and i don't understand
why the fuck you show your face
on TV, in the papers
do you have no fuckin' shame
smiling right at our faces
we're sinking more with every day
you lead your politics
you should be one who cares,
but your interest is yourself
